

# Bohemian

Free-spirited and eclectic, this relaxed style is all about collected finds and telling stories of your travels.

Bohemian is both a mindset and a style—a relaxed, casual landing pad for downtime between adventures. Rooms are filled with warm colors, rattan accents, expressive rugs, travel trinkets, and maybe a few too many plants (but who's counting?). This style creates a cozy, inviting energy, as unique as the person who inhabits the space.

## Signature Elements
